Media Release

Denk Pharma and the Syndicate of Iraqi Pharmacists Announce Strategic Cooperation to Advance Pharmaceutical Practice in Iraq

Munich, Germany / Baghdad, Iraq – 20. April 2026

Denk Pharma GmbH & Co. KG and the Syndicate of Iraqi Pharmacists have formalized a strategic cooperation through a Memorandum of Cooperation (MOC), signed in Baghdad. The agreement establishes a framework for scientific and professional collaboration aimed at **strengthening pharmaceutical practice, advancing continuing education and improving patient health outcomes across Iraq.**

Denk Pharma stands for "Quality for your health – Made in Germany". This commitment goes beyond the provision of premium-quality medicines. Through this cooperation, Denk Pharma and the Syndicate of Iraqi Pharmacists will bring this standard to Iraqi citizens in its fullest sense. **High quality pharmaceutical products as well as educational workshops, professional training and health content designed to empower pharmacists, healthcare professionals and patients alike.**

Cooperation Highlights

- **Denk Pharma and the Syndicate of Iraqi Pharmacists have joined forces** in a shared commitment to pharmaceutical excellence, formalized through a Memorandum of Cooperation.
- Both organizations are dedicated to empowering Iraqi pharmacists through joint **professional development programs, continuing education courses, hands-on workshops, and seminars in key therapeutic areas, including the jointly developed webinar series "Pharma Excellence,"** which delivers expert-led sessions, practical insights, and up-to-date scientific knowledge.

The cooperation between Denk Pharma and the Syndicate of Iraqi Pharmacists reflects a shared conviction that "Quality for your health - Made in Germany" means more than a product standard. It is a commitment to sustainable impact, delivered through premium medicines, professional education and community-focused health initiatives that benefit Iraqi patients and the pharmacists who serve them.

To generate targeted awareness around the topic of pain, an additional local disease awareness campaign has been launched in Iraq. The initiative focuses on improving patient understanding of pain management, promoting responsible use of medications, and strengthening overall health literacy.

Furthermore, the initiative is not only important at a local level in Iraq, but also serves as an important layer at a global level for the shared goals that Denk Pharma is pursuing together with the International Pharmaceutical Federation (FIP). This connection supports the alignment of local activities with international standards and reinforces the shared commitment to advancing pharmaceutical care and patient outcomes worldwide.

About Denk Pharma

Denk Pharma is a German pharmaceutical company with more than 75 years of experience in delivering premium-quality medicines to over 80 countries worldwide. Products are manufactured with German expertise according to strict GMP guidelines, undergo continuous quality testing, and are distributed internationally in identical pharmaceutical quality to ensure safety, efficacy, and reliability for patients across the globe.

About the Syndicate of Iraqi Pharmacists

The Syndicate of Iraqi Pharmacists is the national professional body representing pharmacists across Iraq. It is dedicated to advancing the pharmacy profession, promoting continuing education and advocating for high pharmaceutical standards in the interest of patient health and public welfare.
